

# On Line, off line, indoor plants always *die* on me!

**We guarantee your  
money back if you're not satisfied.  
You won't even have to return  
the plant...**

Well surprise, surprise, they die on us as well but that doesn't mean we shouldn't stop providing them. Plants are there for our benefit after all. The only difference between professional maintenance and home care is that we have learnt to keep them alive and healthy longer. Now we would like to show you how. Remember to start with the best product, choose only plants conditioned to low light display. Know when and how much water to give them and what to do in the event of pests or disease. It's all on our website.

Come on, click onto [www.envirodoctor.com.au](http://www.envirodoctor.com.au) and give your family the living experience they deserve. You'll all enjoy it. We will send you a **free** sample pack of **Envirosustain**, our specially formulated indoor plant food, for every registration.
