

Your New Year Resolution:

improve leadership, increase production & lower costs!

An investment in your staff's well being and amenity by providing indoor plants for the work place will contribute strong EQ signals and increase productivity so Enviro Doctor offers to make it a hat trick for you. For a limited time we will reduce our already very competitive plant service charge by 30% without compromising the service in any way.

If you haven't made the investment yet there's never going to be a better time.

Have a very prosperous New Year.

Conditions apply and only for a limited time.
